

OVERVIEW
UpSkill Program
“Expatriates & Diaspora Stipend
Window”

Expatriates & Diaspora Stipend Window

This stipend will support international staff, including Arab Israelis, and Palestinians in the Diaspora with senior technological expertise or leadership experience, to work with Palestinian IT services firms to build the technical and managerial capacity of their workforce. The Expatriate & Diaspora stipend will help cover either the salaries or the additional costs of hiring individuals with international skillsets that cannot be found in the West Bank and Gaza. Expatriates will be required to have technological expertise or leadership roles during the terms of their contracts to maximize high-tech knowledge transfer and build teams of juniors. Expatriates will need to be either integrated in revenue-generating client projects or be involved in strategic roles to upgrade the capabilities of the enterprise (for example, as temporary Chief Technology Officer, technical team lead, or product manager) to improve internal systems and processes. The role cannot be administrative (such as accountant, tech support, etc) or business development/sales/marketing. If the salary support option is requested, the size of the stipend will be in-line with the level of effort of the task and be commensurate with the skills and experience of the individual with the expats' previous salary being taken into consideration as an input and valid for a maximum of two years. The expatriate contract must be for full-time work and will include quantifiable and measurable quarterly KPIs and periodic evaluation.

The stipend will cover either (i) up to 70% of the basic salary of the individual (the beneficiary company will be required to cover up to 30% of the basic salary in addition to any performance-based bonuses if any), or (ii) the expatriate benefits such as relocation costs, house allowance, health insurance, schooling, and hardship allowance (the beneficiary company will be required to cover the full salary and performance based bonuses if any). The company will need to present a diagnosis of gaps and a credible business plan for the utilization of the expatriate staff for workforce capability upgrading to address those gaps. The business plan will need to present the salary and other expenses that the firm will invest in this upgrading process to make a case for value for money.

In addition, the UpSkill program offers technical assistance in two different forms:

- 1- Technical assistance to companies that have been awarded a grant but are not yet registered, as they must be registered before signing the grant agreement. Such companies will be connected with TechStarts's legal partner, and the program will cover all costs for the registration process. No payments / reimbursements will be made to the awarded company.
- 2- Technical assistance to cover license/subscription fees for online courses/training/software for the duration of the training period. This does not include paying a senior employee of the company to train the new hires, nor does it include paying an external trainer to provide courses to the new hires. If awarded, the company can pay for the course fees and request reimbursement with proper documentation. The request cannot be made for any payments dated prior to the Grant Agreement sign date.

Program Details

Duration

The applications for the Expatriates & Diaspora Stipend Window will be open for the operational duration of the TechStart project, starting in Q1 2022, and applications will be evaluated on a rolling basis, as received.

Target Group

IT services firms from the Palestinian IT sector, in accordance with the guidelines of TechStart's Environmental and Social Management Framework (ESMF), to ensure broad outreach and impact within the local entrepreneurial ecosystem. The targeted group includes mature tech and tech enabled startups. Firms are considered mature tech or tech enabled startups if they can prove traction / demand in the market and are generating revenues.

Grant Amount

There is no limit on the number of stipends each company can apply to during the project lifetime (depending on the evolving business opportunities that each company has and the success of implementing previous support under the UpSkill Program).

Grant Structure – Financial Support

The financial support will be an In-Kind Grant that covers the amount of the expatriates & Diaspora stipend window, paid directly to the bank account of the individual (Expatriate). The financial support will be governed by terms and conditions as per the Grant Agreement. Upon selection of the general terms of the grant for the applicant, and once the eligible activities have been identified and selected, a grant agreement will be signed with the beneficiary company which defines, among other things, the grant amounts and expected disbursement dates, as well as the required materials/documents as evidence for payments for co-financing. The grant will cover eligible expenses starting from and including the month of signing the Grant Agreement (regardless of the date of signing the agreement within that month) unless otherwise indicated in the agreement. However, the grant will not cover expenses incurred prior to that.

Eligible Expenses – Use of Funds

The UPSKILL grant funding shall be used solely for upgrading the skills of the Palestinian IT service workforce and shall not be used to repay any borrowings, make any dividends or bonus payments to staff, management, shareholders or consultants, or to pay any advisory, placement fees or bonuses to external advisers. Retroactive payments (i.e., payments in arrears) are not eligible.

Stipends are only available for mid-level and advanced-level skills/ technologies. Appendix I includes the IT services/ Technologies eligible under TechStart UPSKILL program and the type of skills / technologies that are excluded from this program.

Non-Eligible Expenses – Use of Funds

The following are all considered as non-eligible expenses for the purposes of this program:

- Retroactive payments (i.e., payments in arrears)
- Any dividends or bonus payments to staff, management, shareholders, consultants, or revenue share agreements
- Repayment of funds loaned to the company by related parties, including the founder/entrepreneurs, other individuals, or financial institutions
- Payments to cover fees levied by investors or pay any advisory or placement fees or bonuses to external advisers
- Use of funds to engage in activities that contravene the ESMF guidelines. Activities within nature reserves or such designated areas
- Purchasing land, commodities, futures, shares, securities, or other financial instruments
- Income tax, which must be covered by the employer, and any other taxes payable by the company or individuals.
- Salaries of consultants and any other non-employees of the applicant
- Employee Benefits, bonus, overhead (Except for beneficiaries of Expatriates & Diaspora stipend window who will receive the specific expatriate & Diaspora stipend)

Non-Eligible Projects – Use of Funds

The program will NOT support beneficiaries / projects in relation to any of the following projects or activities:

- Tobacco production, processing, storage
- Alcohol, wine, spirits
- Projects that involve alteration to rivers or other natural environments
- Mining Projects
- Logging Projects
- Adult Entertainment Projects
- Gambling Projects
- Property Development

Selection Process

Expatriates & Diaspora Stipend Window Eligibility Criteria

Each company applying to this window must meet all of the following eligibility criteria to be considered for further evaluation:

1. Be a company legally registered, and operating out of the West Bank and Gaza; or in the process of legal registration; or committed to register with Ministry of National Economy
2. Firms are IT services companies and business service providers working in the technology field in software development, computer programming and consultancy, data processing, hosting or

related activities, or mature tech / tech-enabled startups¹ that have some traction in the market and are already generating revenues.

3. Be operational for at least 6 months prior to applying to the program. A company is considered operational if it engages in activities on a daily basis to increase the value of the enterprise, has existing customers, or has employment contracts and paying salaries
4. Projects have minimal or non-existent environmental impacts.

After potential beneficiary firms have passed the initial eligibility criteria, further evaluation of their applications, based on selection criteria, will be conducted to decide if they are admitted to or rejected from the program.

Expatriates & Diaspora Stipend Window Selection Criteria

The following are the selection criteria for the company.

1. Firms should provide evidence they have growth potential and a commercially sound business plan, that they have plans for business expansion, workforce expansion plan and can showcase the use of the stipend windows in their business development activities.
2. The company has experienced and complementary leadership and a management team with the right skills and personal strengths.
3. Firms should present a brief diagnosis of existing technological gaps and a credible plan for the utilization of the expatriate staff to address those gaps to help the firm upgrade the workforce capability, processes, and product development and contribute to the growth potential of the firm.
4. Firms should clearly define the role and scope of work for the Expatriate, including responsibilities, tasks, and level of effort, clear quantifiable, and measurable KPIs to be achieved during the contract, proposed duration of the contract with the expatriate, and the proposed salary or expat benefit package, and present the technological experience and / or leadership skills that the expatriate has in order to fulfill that specific role.
5. Firm must propose to hire the expat for a full-time contract (not a part-time employee or consultant)
6. Firms should propose the expat for roles that are integrated in revenue-generating client projects or involved in strategic aspects of management to upgrade the capabilities of the enterprise (for example, as temporary Chief Technology Officer, technical team lead, or product manager). The expat cannot be proposed for administrative roles (such as accountant, tech support, etc) and business development/sales/marketing roles. Samples of accepted roles are: CTO, Technical team lead, product manager.

The following are the selection criteria for the proposed individuals:

1. The individual must currently be living and working outside of West Bank and Gaza and must have done so for at least the last 12 months prior to application.

¹ Firms are considered mature tech or tech enabled startups if they can prove traction / demand in the market and are generating revenues

2. The individual must have senior level experience in tech working in international companies (i.e. team lead, CTO, product manager, senior expert) in the field related to the submitted gap diagnosis.
3. The individual must have physical presence in West Bank or Gaza for the proposed full time contract period. If part of the tasks under the contract can be delivered remotely, a hybrid mode of work can be considered. If hybrid mode of work is proposed, the level of in-person vs. remote work must be specified and justified to ensure that there is no negative impact on the knowledge transfer or achievement of KPIs outlined in the ToR as compared with a fully in-person presence.
4. The individual must not be an immediate family member for the owner/manager or an immediate family member for the spouse of the owner/manager of the IT firm. Immediate family members include: spouse, child, niece/nephew, parent, siblings, grandchild, in-laws.

NOTE: If the salary support option is requested, the proposed salary of the individual must be in-line with the level of effort of the task, be commensurate with the skills and experience of the individual, with the previous salary being taken into consideration as an input. The company must negotiate a salary that they are willing to pay irrespective of TechStart support. The agreement with TechStart must be signed before the company signs the contract with the proposed individual.

Application Content

Firms applying for the Expatriates & Diaspora Stipend Window must complete the online application and provide all the following set of materials:

- Completed application form, in English
- Business Registration Certificate, or signed commitment template to register with MoNE, attached to the application form
- Historical financials/accounting records for the previous two years for firms over two years old; for start-ups or SMEs under two years old, must provide records for previous operating periods (3 months at minimum) (Profit/loss statements, not balance sheet)
- List of shareholders/ owners and copy of their IDs
- Management Resumes including CEO / top managers
- Business Plan including budget, expansion, marketing, sales, etc.
- List of existing customers / clients
- Brief technology gap diagnostic showing need for Expatriate resource and how the Expatriate will fill the identified gaps and support company expansion
- CV for Expatriate showing senior technological or leadership experience related to the proposed role
- Copy of Passport ID for Expatriate
- Scope of work proposed for the Expatriate including clear measurable KPIs
- Proposed detailed stipend amounts and duration of stipend that should be aligned with experience and the role of the Expatriate

The PIA may request additional documentation from the applicant as it deems necessary during the assessment of the application

Application Instructions

While completing the online application, applicants should consider the following:

- There can only be one application per company submitted at a given time, but companies can include requests and the required specific documents for different stipend windows when they apply
- All information provided in the application must be true and accurate
- All applications including information and documentation must be submitted in English.
- Only applications submitted via the program's online portal will be considered
- All application supporting material must be uploaded to the relevant section of the online portal (no hard copies will be accepted)
- Only complete applications will be considered for evaluation
- Uploading Documents:
 - The applicant firms may be asked to revise or provide additional information to their application by DAI within a given timeline
 - Applicants are solely responsible for all relevant documents being uploaded in the appropriate sections of online portal

Failing to satisfy any of the above requirements can lead to the application being rejected.

Application Review & Selection Process

The application form is accompanied by a Frequently Asked Questions (FAQs) document that has been created for applicants to better understand the program's scope, eligibility criteria, in addition to instructions on how to complete and submit the application.

The application will be open for the duration of the project life, during which applications will be reviewed on a rolling first come first served basis. The following diagram gives an indicative timeline for the application processing.

Disbursement

Based on the type of grant(s) awarded, the appropriate disbursement plan approved by the committee and tailored for each grant recipient needs will be developed. Disbursement of funds occur monthly and each beneficiary will be informed of the required documents that must be submitted and approved prior to the fund disbursement. These funds will be transferred directly to the bank accounts of the individual beneficiaries.

Beneficiary firms acknowledge that the stipends paid on behalf of them to their employees are the employee's entitlement and at no time shall the beneficiary firms request or require any portion of these payments returned to the firms. Failure to abide by this will result in immediate termination of the support and immediate request of refunding of all funds made available to the beneficiary firms.

Termination of Grant Agreements and Funding

A grant may be terminated, and a grant beneficiary is required to repay the grant in full under the following circumstances where the grant beneficiary:

- a) uses the grant funds in contravention to the purposes stated in its application
- b) uses the grant funds to pay for expenses listed in the non-eligible expenses as listed above
- c) uses the grant funds to fund non-eligible projects as listed above
- d) has deliberately made false or incomplete information to obtain the grant, at any time during the lifetime of the grant

- e) fails to cooperate and provide the necessary monitoring & evaluation information as requested by the TechStart
- f) fails to cooperate with the TechStart or WB auditors
- g) violates any of the Environmental & Social Safeguards stated in the Grant Agreement

Conflicts of Interest

All procedures for approval for grant funding will be done with the utmost diligence and any conflicts of interest declared. Any TechStart/DAI staff or selection committee member involved in the above procedures will be required to declare any personal or organizational relationship or interest in any enterprises or individual applicants, and/or disclose those interests in which they have a particular stake.

Additionally, applicants are to take all necessary precautions to avoid conflicts of interests or the perception thereof and shall inform TechStart/DAI without delay of any situation constituting, or likely to lead to, any such conflict.

There is a conflict of interest where the impartial and objective exercise of the functions of any grant applicant, grant selection committee member, or TechStart/DAI staff in relation to the execution of this project is compromised because said applicant, committee member or staff member is in a position to derive personal benefits from actions or decisions made in their official capacity due to personal or professional relationships.

Fraud and Corruption

DAI will require Beneficiaries to adhere to the highest ethical standards. The following practices as defined by the World Bank, shall not be tolerated and shall lead to termination of the grant agreement:

- “corrupt practice” is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the actions of another party
- “fraudulent practice” is an act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation
- “collusive practices” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party
- “coercive practices” is impairing or harming, or threatening to impair or harm, directly or indirectly, persons or their property to influence their participation in a procurement process, or affect the execution of a contract
- “obstructive practice”
 - deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede a World Bank investigation into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation, or
 - acts intended to materially impede the exercise of the World Bank’s inspection and audit rights

Monitoring and Reporting

Monitoring

All program Beneficiaries are expected to follow regular monitoring processes. The aim is to assess the impact of support on firms in terms of the key performance indicators of the program, capture the feedback and satisfaction of supported firms and individuals, and facilitate timely modifications of implementation activities as needed.

In addition, field visits may be conducted, to allow TechStart to strengthen direct monitoring and technical assistance to the Beneficiaries.

Reporting

Reports will be periodic based on agreement terms and will focus on essential Beneficiary information required to track grant funds spending.

Firms' reporting will be through semiannual surveys administered twice per year and a Closeout Report that is completed by the grantee at the conclusion of the grant. Individual trainees supported by the program will be required to submit a closeout survey at the end of their support to capture their satisfaction, feedback, and employment status. Follow up surveys with trainees, whose contracts are terminated at the beneficiary company, will be implemented within 3-6 months after the end of their contracts to verify employment.

APPENDIX I

Type of IT services/ Technologies eligible under TechStart UPSKILL program
